METALS and ALLOYS

Volume XIII—January, 1941 to June, 1941

SUBJECT INDEX

Aircraft—Welding Engine Mounts for Martin Bombers.—Herbert Chase. 559 May

Aircraft Engines, Aluminum Alloy Cylinder Heads for. 570 May

Alloy and Electric Steel in 1940.—Edwin F. Cone. 726 June

Aluminum Alloy Cylinder Heads for Aircraft Engines. 570 May

Aluminum-Copper-Nickel-Zirconium Alloys.—Ernest F. Nippes. 294 Mar.

Aluminum, Diffusion in Alpha Solid Solutions of.—R. F. Mehl, F. N. Rhines and K. A. von den Steinen. 41 Jan.

Cast Iron, Class 40—Corrosion Fatigue of Notched Specimens.—H. W. Russell & J. G. Lowther. 169 Feb.

Cast Iron, A Deflectometer for Transverse Testing of.—C. T. Greenidge & E. C. Kron. 723 June

Cast Iron Pipe, Producing, Centrifugally.—Don Graf & Edwin F. Cone. 155 Feb.

Cast Iron and Steel, Hydrogen in.—C. A. Zapffe & C. E. Sims. 444, 584, 737 Apr., May, June, (July)

Castings, Special-Iron, for Heavy Machinery—A Pictorial Account.—S. S. Board, Jr. 36 Jan.

Cobalt-Copper-Silicide Alloys, Two Complex.—F. R. Hensel, E. I. Larsen and E. F. Holt. 151 Feb.

Copper and Nickel, Alloyed with Electrolytic Manganese.—B. L. Averbach, 730 June, (July)

Copper-Tungsten for Electrical Contacts—Properties of Various Compositions.—F. R. Hensel, E. I. Larsen & E. F. Swazy. 577 May

Copper-Cobalt-Silicide Alloys, Two Complex.—F. R. Hensel, E. I. Larsen and E. F. Holt. 151 Feb.

Copper-Nickel-Zirconium-Aluminum Alloys.—Ernest F. Nippes. 294 Mar.

Corrosion Fatigue of Notched Specimens—Class 40 Cast Iron.—H. W. Russell & J. G. Lowther. 169 Feb.

Cylinder Bores, Induction-Hardened.—Fred P. Peters & Edwin F. Cone. 713 June

Cylinder Heads for Aircraft Engines, Aluminum Alloy. 570 May

A Deflectometer for Transverse Testing of Cast Iron.—C. T. Greenidge & E. C. Kron. 723 June

Die Castings in Magnesium Alloy.—Herbert Chase. 145 Feb.

Diffusion in Alpha Solid Solutions of Aluminum.—R. F. Mehl, F. N. Rhines and K. A. von den Steinen. 41 Jan.

Editorials

A New Year—Jan.
Light Weight Rolling Stock—Jan.
Manganese—Jan.
The Cabots Speak only to Cabots—Feb.
Electric Steel Capacity—Feb.
"Rare and Minor Metals"—Mar.
Priorities, Plastics and "the Peace"—Mar.
Substitutes—April
That Old Proportional Limit—April
Youth and Age—April
What's an Engineer?—May
Mind your own Business?—May
From Special Steels to Machine Tools—May
If the Shoe Fits—June
The Order of Judas Iscariot—June

Electric and Alloy Steel in 1940.—Edwin F. Cone. 726 June

Electrical Heat Treatment of Rivet Studs.—L. C. Conradi. 284 Mar.

Electrical Resistance Furnaces for High Temperatures.—Paul Schwarzkopf. 45 Jan.

Electrolytic Manganese Alloyed with Copper and Nickel.—B. L. Averbach. 730 June, (July)

Electrolytic Polishing of Steel Specimens.—G. F. Meyer, G. D. Rahrer & J. R. Vilella. 424 Apr.

Forgings versus Welded Assemblies—J. A. Petrie & George W. Papen. 734 June

Furnace, Special Heat Treating, for Military and Other Parts.—Horace C. Knerr. 49 Jan.

Furnaces, Electrical Resistance, for High Temperatures.—Paul Schwarzkopf. 45 Jan.

Heat Treatment, Electrical, of Rivet Studs.—L. C. Conradi. 284 Mar.

Heat Treatment of Steel Castings—Early History.—John Howe Hall. 563 May

A Holder for Metallographic Specimens During Polishing.—George R. Kauffman. 171 Feb.

Hydrogen in Steel and Cast Iron.—C. A. Zapffe & C. E. Sims. 444, 584, 737 Apr., May, June, (July)

Induction-Hardened Cylinder Bores.—Fred P. Peters & Edwin F. Cone. 713 June

Letters to the Editor

The Iron Powder Situation. 51 Jan.
Metals and Alloys in the Dairy Industry. 173 Feb.
Tin Plate and Solder. 174 Feb.
Bearing Metals. 174 Feb.
Counter-Espionage Activity. 301 Mar.
Failure of Low Carbon Steel Tubes. 449 April
Metallography of Tin and Tin Coatings. 449 April
18:8 and Notched Fatigue. 450 April
Metals and Alloys in the Dairy Industry. 450 April

Low-Alloy, High Strength Steels, The Present Status of the.—Edwin F. Cone. 273 Mar.

Magnesium Alloy, Die Castings in.—Herbert Chase. 145 Feb.

Magnesium Alloys in Industry.—John C. Mathes. 23 Jan.

Manganese, Electrolytic, Alloyed with Copper and Nickel.—B. L. Averbach. 730 June, (July)

Metallography of Tin and Tin Coatings on Steel.—O. E. Romig & D. H. Rowland. 436 Apr.

Nickel and Copper, Alloyed with Electrolytic Manganese.—B. L. Averbach, 730 June, (July)

Nickel-Zirconium-Aluminum-Copper Alloys.—Ernest F. Nippes. 294 Mar.

Our Electric and Alloy Steel in 1944.—Edwin F. Cone. 726 June

Poetry

Effect of Temperature on the Minds of Metallurgical Engineers.—J. Tucker MacKenzie & Staff of U. S. Corp. Res. Lab. 52 Jan.
A Metallurgist's Letter of Application.—Robert L. Nichols. 450 April

Polishing, A Holder for Metallographic Specimens During.—George R. Kauffman. 171 Feb.

Practical Metallography of the Stainless Steels.—Stanley P. Watkins. 31, 162, 288, 431 Jan., Feb., Mar., Apr.

The Present Status of the Low-Alloy, High Strength Steels.—Edwin F. Cone. 273 Mar.

Producing Cast Iron Pipe Centrifugally.—Don Graf & Edwin F. Cone. 155 Feb.

Rivet Studs, Electrical Heat Treatment.—L. C. Conradi. 284 Mar.

Silicide Alloys, Two Complex Copper-Cobalt.—F. R. Hensel, E. I. Larsen & E. F. Holt. 151 Feb.

Special Heat Treating Furnace for Military and Other Parts.—Horace C. Knerr. 49 Jan.

Special-Iron Castings for Heavy Machinery—A Pictorial Account.—S. S. Board, Jr. 36 Jan.

Stainless Steels, Practical Metallography of the.—Stanley P. Watkins. 31, 162, 288, 431 Jan., Feb., Mar., Apr.

Steel and Cast Iron, Hydrogen in.—C. A. Zapffe & C. E. Sims. 444, 584, 737 Apr., May, June, (July)

Steel, Making, in the U. S. S. R., Trends and Experiments in.—S. L. Case. 419 Apr.

Steel Castings, Heat Treatment of—Early History.—John Howe Hall. 563 May

Steel Specimens, Electrolytic Polishing of.—G. F. Meyer, G. D. Rahrer & J. R. Vilella. 424 Apr.

Tin and Tin Coatings on Steel, Metalography of.—O. E. Romig & D. H. Rowland. 436 Apr.

Transverse Testing of Cast Iron, A Deflectometer for.—C. T. Greenidge & E. C. Kron. 723 June

Trends and Experiments in Making Steel in the U. S. S. R.—S. L. Case. 419 Apr.

Tungsten-Copper for Electrical Contacts—Properties of Various Compositions.—F. R. Hensel, E. I. Larsen & E. F. Swazy. 577 May

Two Complex Copper-Cobalt-Silicide Alloys.—F. R. Hensel, E. I. Larsen & E. F. Holt. 151 Feb.

Welded Assemblies, Forgings versus.—J. A. Petrie & George W. Papen. 734 June

Welding Engine Mounts for Martin Bombers—Herbert Chase. 559 May

Zirconium-Aluminum-Copper-Nickel Alloys.—Ernest F. Nippes. 294 Mar.
